INFRA-RED CHAISE LOUNGE

# Cleopatra Infra-Red Chaise Lounge

The perfect integration of elegance and well-being.

Discover the world's most elegant expression of "thermotherapy".  
Natural Infrared Energy embodied in an artisan, marble sculpture.

Winner of the prestigious European Health & Spa Award in the category:

**BEST TECHNICAL SPA INNOVATION**

**NOW AVAILABLE** at your SPA Center & in select Furniture Stores.

Bring the healing experience of the Spa home: relax – repair – renew – detoxify - with our  
luxurious, infrared heated chaise lounges.

Lie back on our infrared-heated, ergonomically perfect, natural stone chaise lounge and feel your body's tension melt away. Unlike other "heat" therapies infrared heat penetrates below the skin's surface, providing unprecedented health benefits and a profound sense of deep relaxation. Infrared heat is completely safe—hospitals use infrared heat to warm premature babies. Now you can create a restful sanctuary in your own home with one of our elegant chaise lounges and enjoy the health-enhancing benefits of infrared treatment.

### HOW IT WORKS

Infrared therapy enhances your well-being by:

- Promoting deep relaxation and stress reduction
- Improving detoxification—Sweat produced by infrared heat contains approximately 20% toxins compared to 3% with sweat produced by exercise or other heat therapies.
- Providing Immune system support—It stimulates the production of blood cells that help the body fight viruses and infections.
- Accelerating recovery from injuries—Infrared heat helps to release enzymes in the body that increase the elimination of damaged tissues.
- Easing joint pain and stiffness—infrared heat penetrates deeply into the muscular and skeletal system providing prompt pain relief and greater joint mobility.
- Improving blood circulation and helping to lower blood pressure.
- Aiding in weight control/management—it mildly accelerates the burning of calories.
- Rejuvenating your skin—Infrared waves help stimulate the production of collagen and increase skin regeneration, improving the skin's tone, texture and elasticity.

Since the beginning of time every organism on Earth has depended on the Sun's warmth to thrive. Our Cleopatra Hot Stone Chaise Lounge provides the same radiant warmth without harmful light waves.

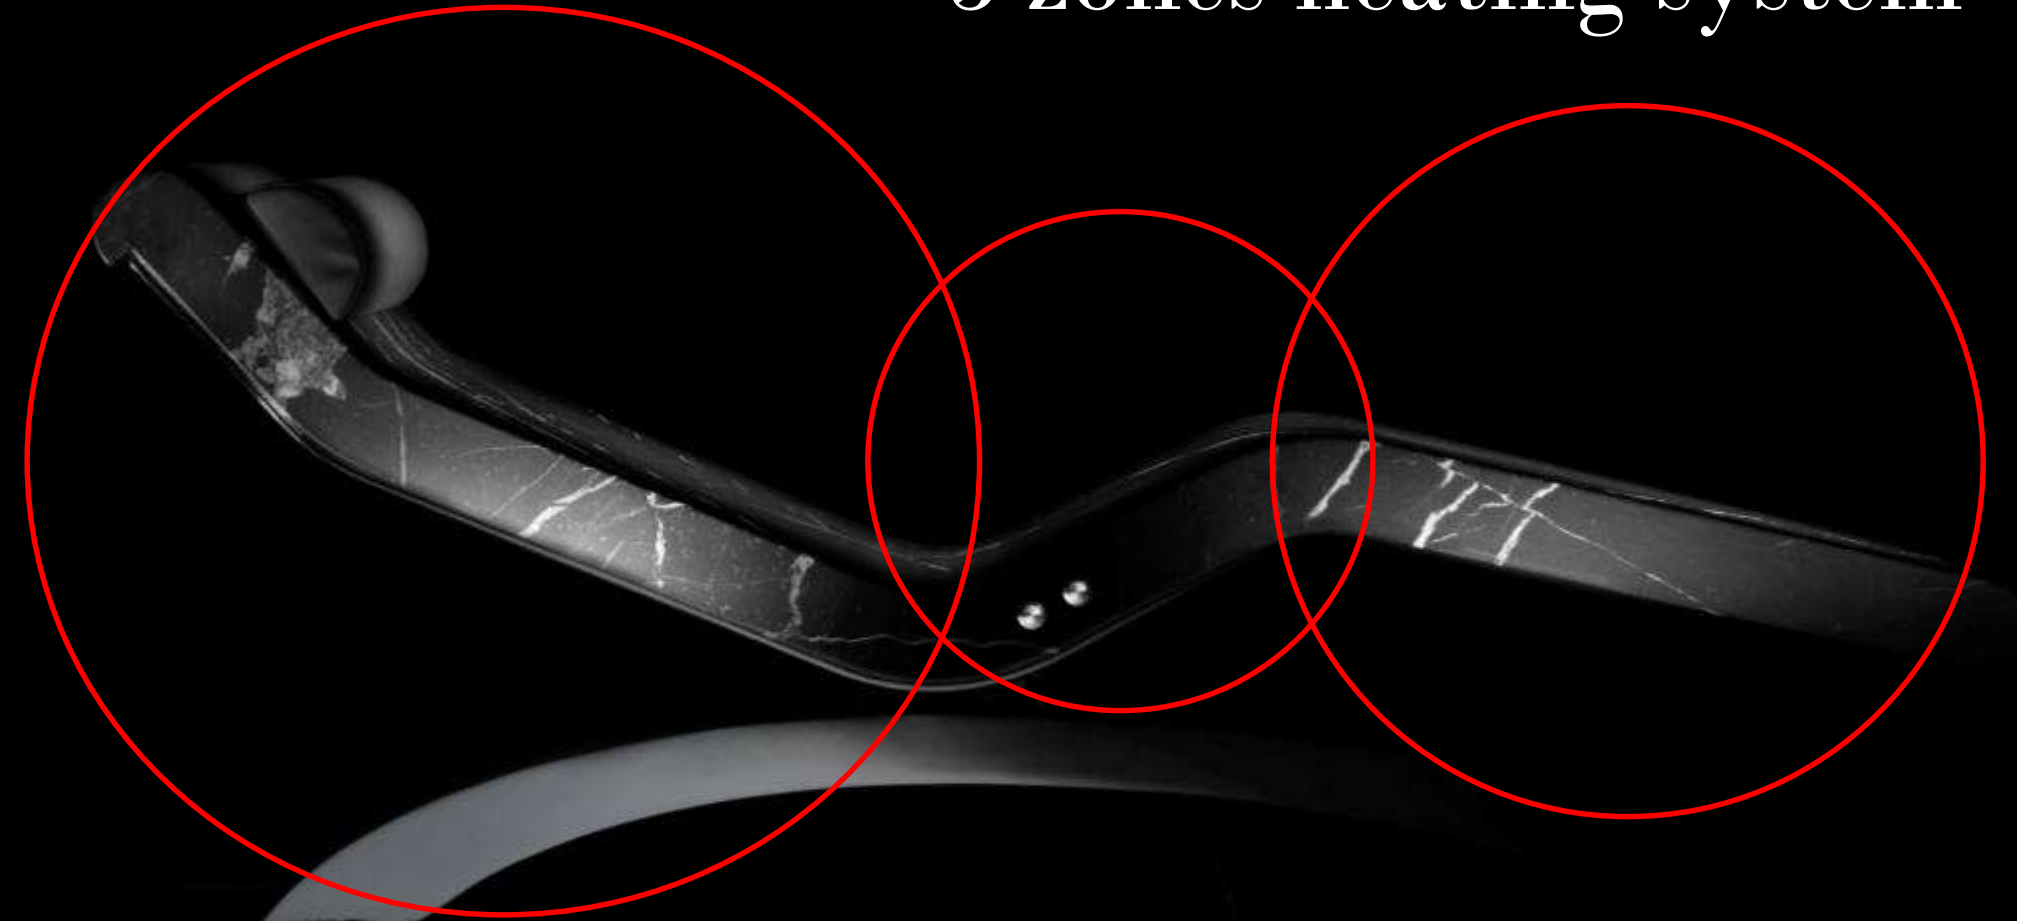

Relaxation – an essential element to achieve balance in our everyday lives. With this in mind the Cleopatra lounge was designed to offer maximum ergonomic support and comfort. The silky smooth finish applied to the marble caresses and soothes the skin as healing infrared heat radiates throughout the entire body promoting total relaxation. The adjustable temperature with three independent “Heat-Zones” makes Cleopatra the perfect choice for those seeking perfection and an “individualized approach” to personal Wellness.

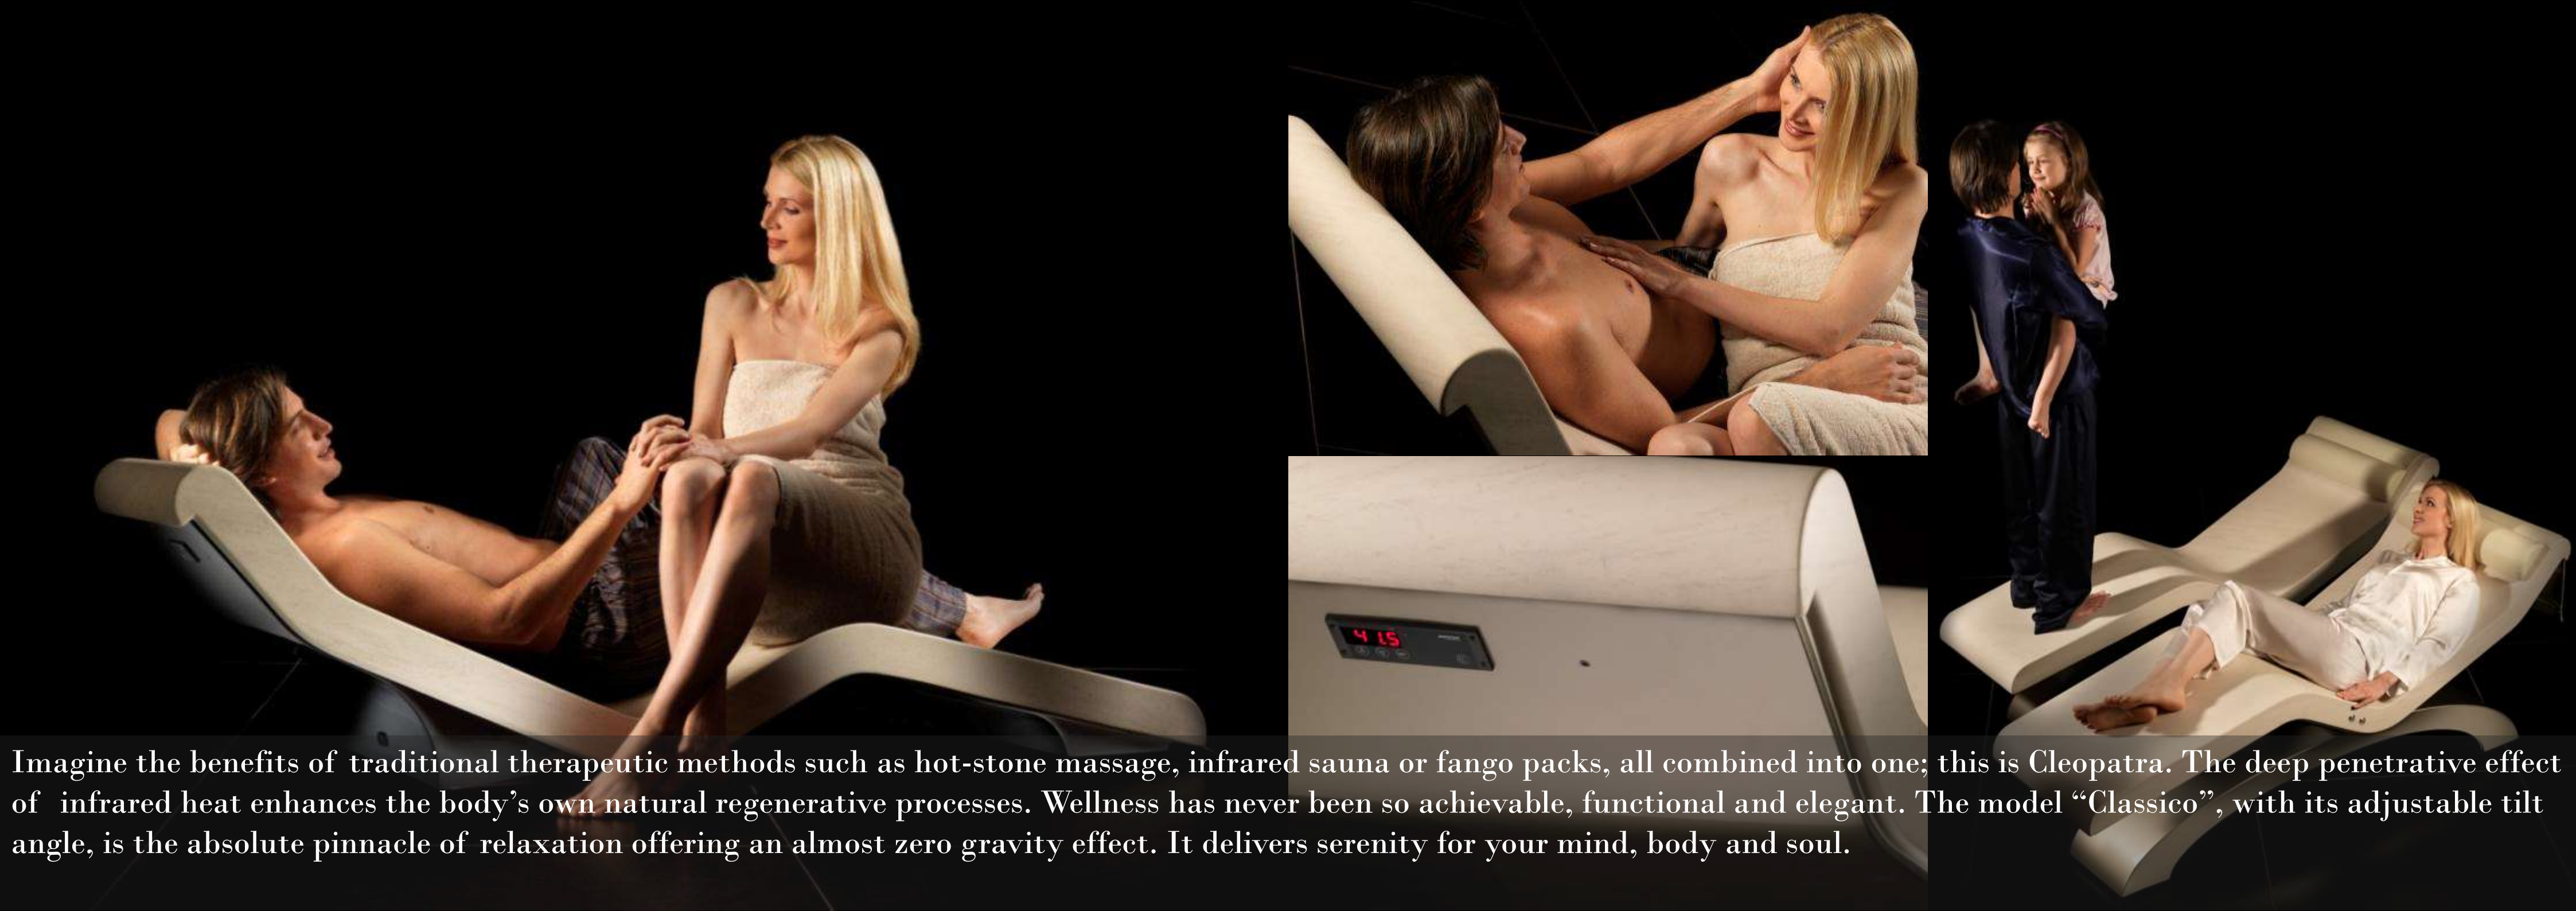

3 zones heating system

Comfort without compromise. Each Cleopatra Hot Stone Chaise Lounge is equipped (on demand) with a thermostat switch system that allows you to adjust the heat of 3 independent zones—legs, hips, back—to maximize your comfort and individualize your treatment. The 3- zone heating system upgrade is specifically designed to satisfy your unique needs be they personal or medical.

Imagine the benefits of traditional therapeutic methods such as hot-stone massage, infrared sauna or fango packs, all combined into one; this is Cleopatra. The deep penetrative effect of infrared heat enhances the body's own natural regenerative processes. Wellness has never been so achievable, functional and elegant. The model "Classico", with its adjustable tilt angle, is the absolute pinnacle of relaxation offering an almost zero gravity effect. It delivers serenity for your mind, body and soul.

# Inclination

There is elegance of movement and perfection in the details. A simple pressure on the button and the sculpture swings. An infinite variable control switch allows you to find the optimum comfort for unparalleled relaxation. A sensation that only Classico can provide - a result no one has achieved before.

Cleopatra's combination of warmth and ergonomic perfection make it a valuable adjunct to a variety of therapeutic treatments. Relaxed and revitalized the body's own innate healing processes are activated. The beneficial infrared waves penetrate deep beneath the skin's surface improving and strengthening the circulation, and promoting regeneration of the cells. No other form of "thermotherapy" has this type of cellular effect. Our Cleopatra infrared heated chaise lounge is heralding a new age in medical wellness and heat therapy.

Two collections and three different models allow you to choose the perfect lounge for any environment, be it your own home or a professional setting such as a Spa or Wellness Centre. Cleopatra is the first heated chaise lounge handcrafted from a single marble block. In addition, it is mounted on rollers, making it very easy to handle, whether indoors or outdoors. “Cleopatra” is a revolution in Medical Wellness - Wellness for mind, body and soul, embodied in an elegant timeless design.

# Colour collection

An elegant color selection for our Chaise Lounge accessories.

Skai leather headrests and a choice of metallic paints for the base allow for a perfect integration with your personal décor.

## DIVA Collection

Sinuous curves, captivating lines, hand crafted marble, embodied within a fiberglass frame painted with exclusive metallic lacquers---this is the "Diva" model Lounge. Diva is an exquisite piece of art that blends bold design with innovative engineering. The new fiberglass frame that embodies the marble sculpture enhances the elegance of the lounge while offering it durable protection and a quality of dignified uniqueness. Furthermore, The Diva maintains Cleopatra's Far-Infrared heating system with all its benefits and functionalities.

# CLASSICO

## Technical Drawings

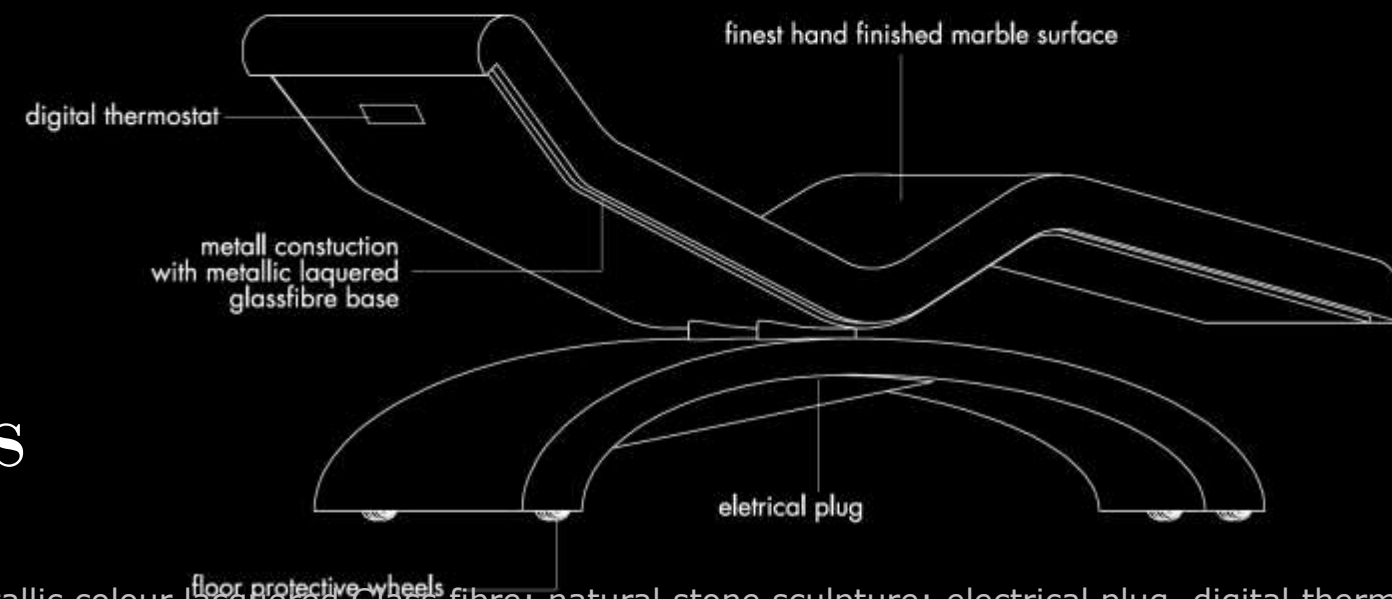

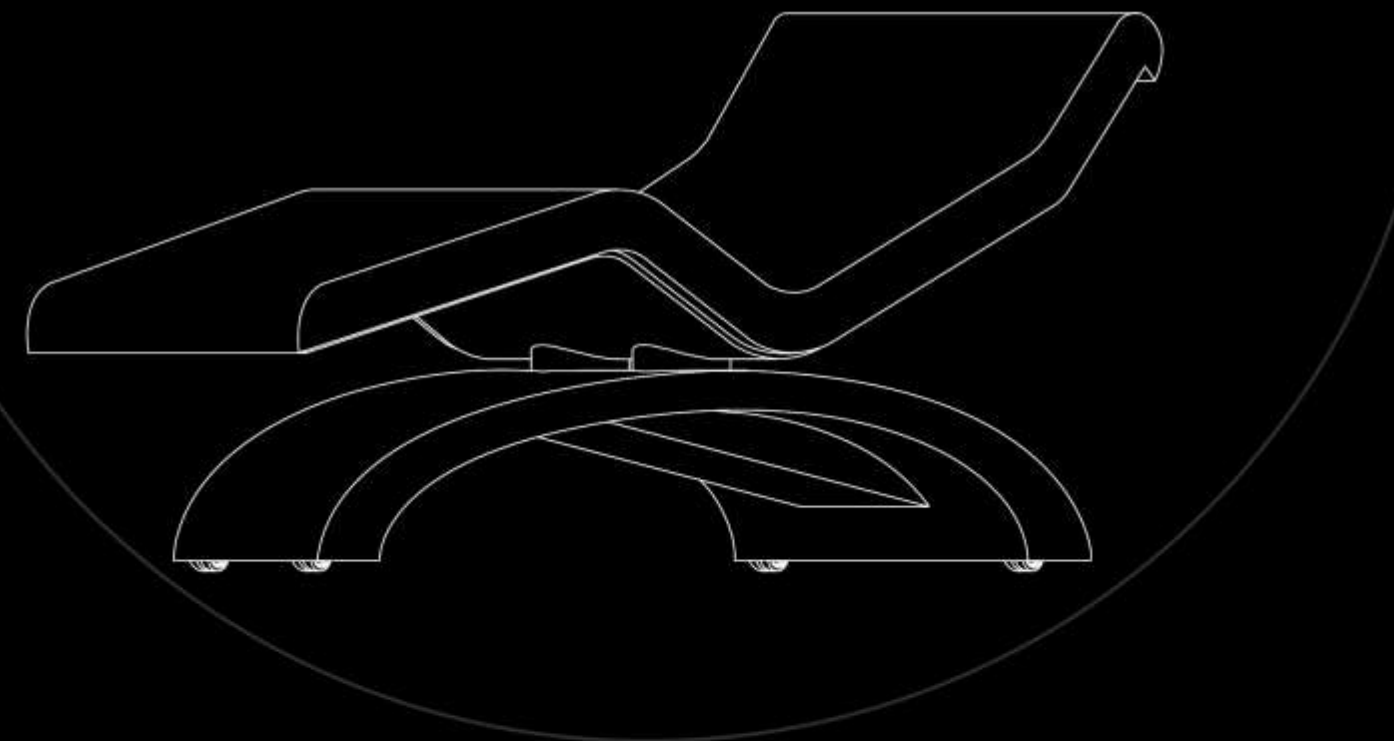

The model "Classico" is unique in its structure combining both design and technology. With its adjustable tilt angle it offers optimum relaxation and a zero gravity effect. Its precise ergonomics and its characteristic versatility make "Classico" the perfect choice for in-home or professional use.

- Weight: DIVA 190Kg; Cleopatra 235Kg;
- Dimension: 1930mm x 680mm x 835mm
- Hidden thermostat control: Up to 104°F
- 30 minutes to achieve set temperature

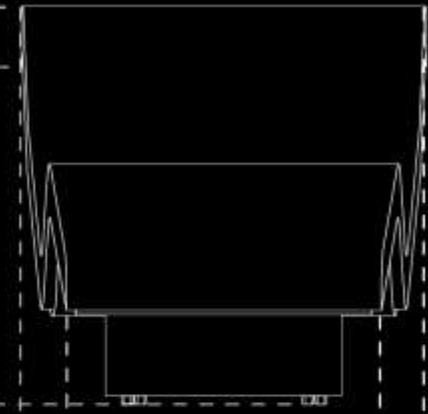

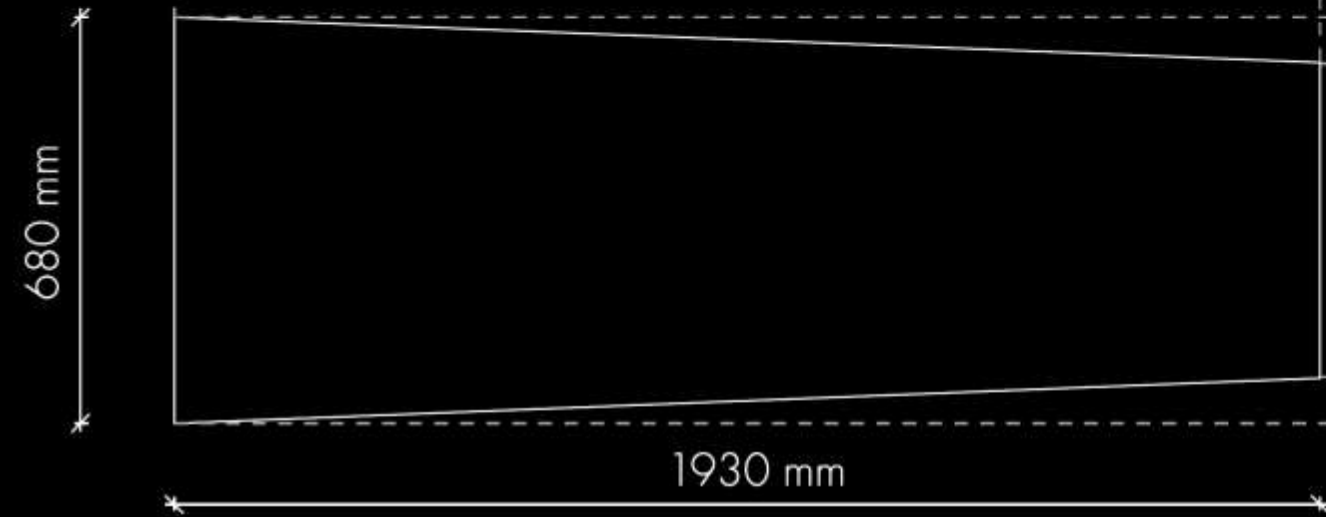

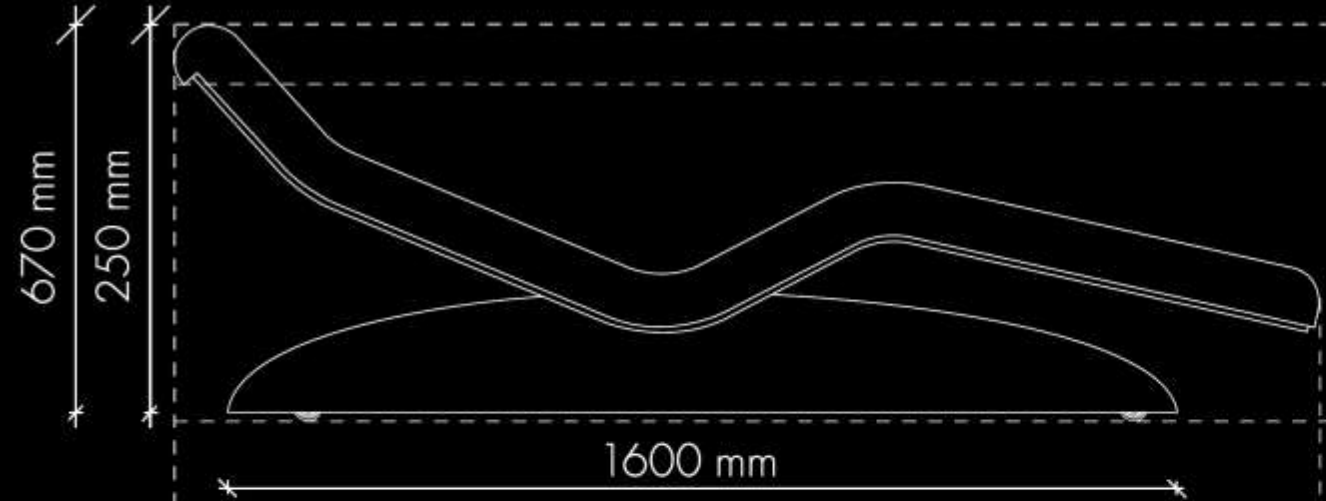

### UPGRADE POSSIBILITIES

- Three zone heating system
- Adjustable tilt angle
- Genuine leather cover base

Waterproof metal construction; metallic colour lacquered Glass fibre; natural stone sculpture; electrical plug, digital thermostat; floor protecting wheels

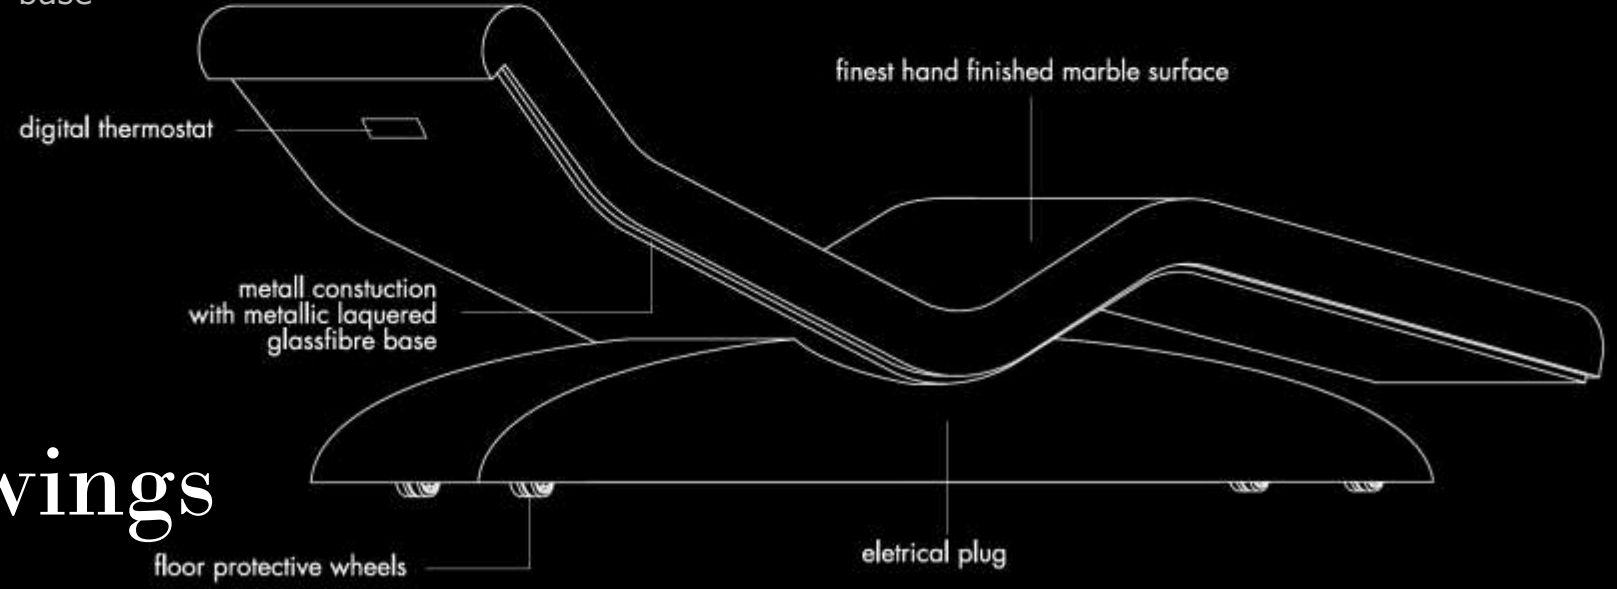

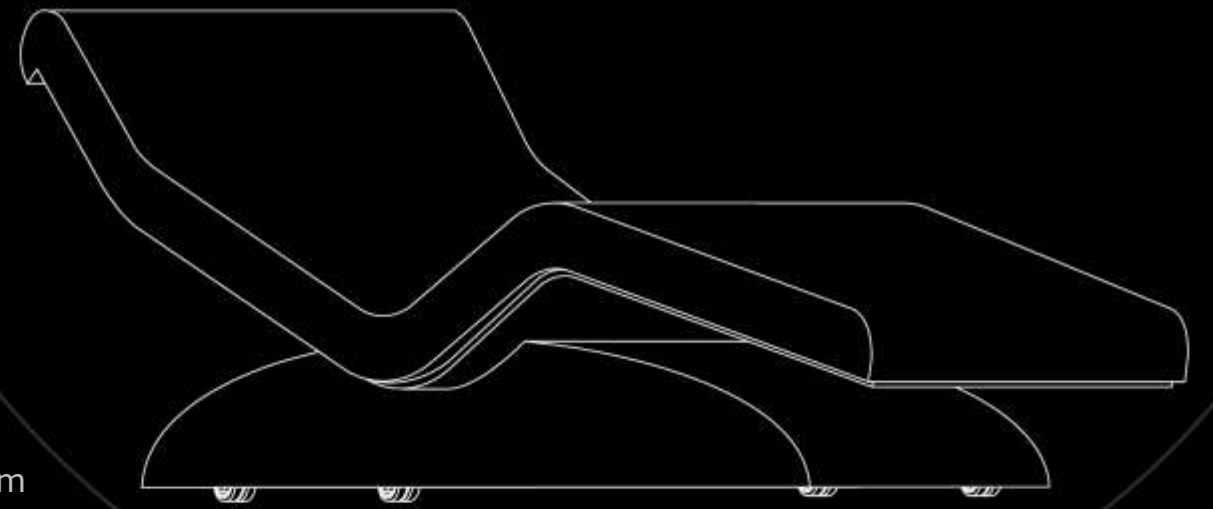

# MODERNO

## Technical Drawings

The graceful design of Cleopatra "Classico" is repeated in Cleopatra "Moderno". The simplified, low profile design and elegant curves of the base will fit perfectly in any surrounding. Unlike the model Classico, Moderno is not available in the reclining position. It is therefore suitable in situations where "relaxation" is the primary focus of treatment.

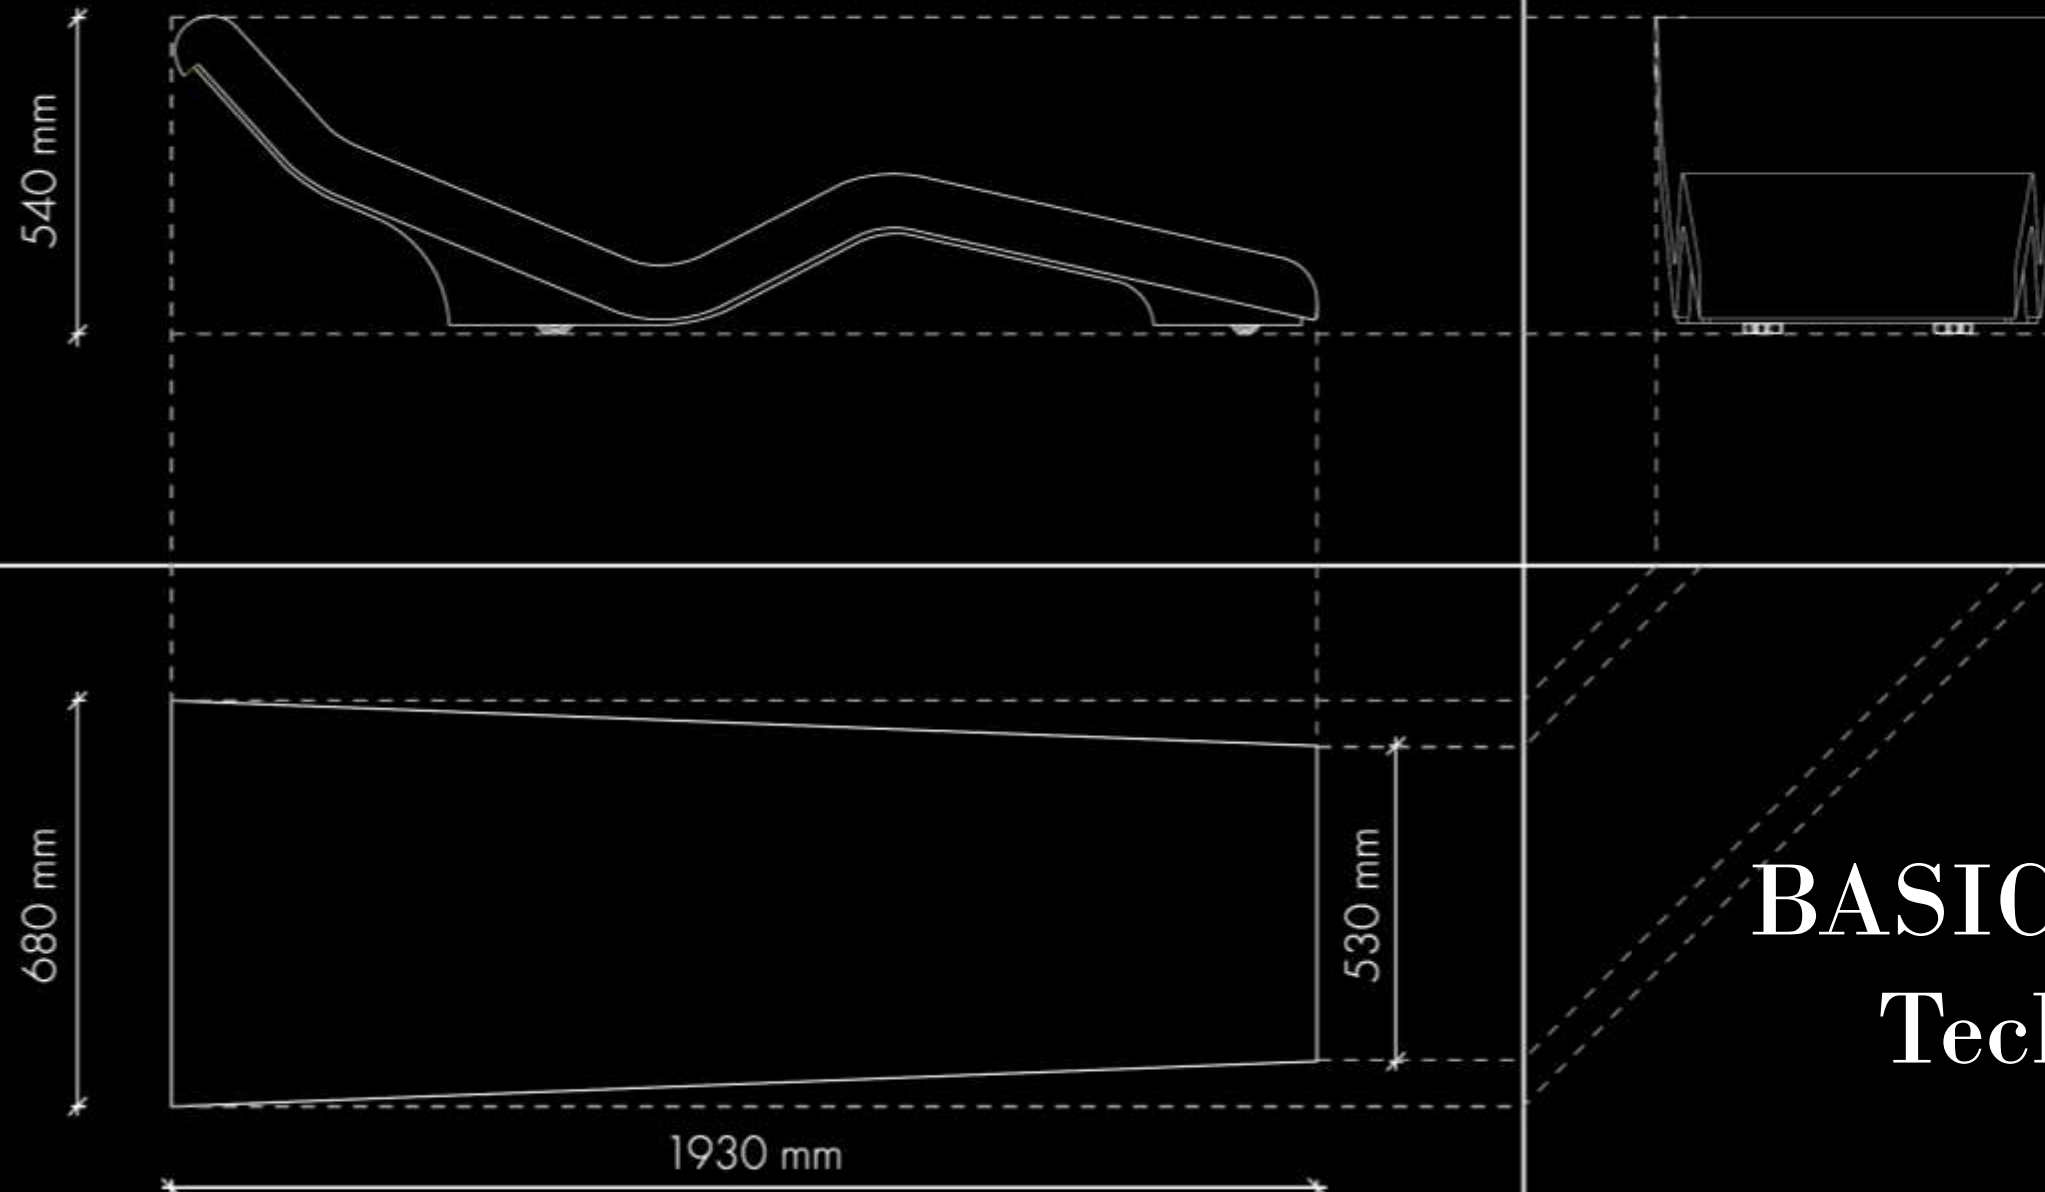

- Weight: DIVA 135Kg; Cleopatra 165Kg;
- Dimension: 1930mm x 680mm x 835mm
- Hidden thermostat control: Up to 104°F
- 30 minutes to achieve set temperature

- UPGRADE POSSIBILITIES
- Three zone heating system
  - Genuine leather cover base

Waterproof metal construction; metallic colour lacquered Glass fibre; natural stone sculpture; electrical plug, digital thermostat; floor protecting wheels

Minimalistic, contemporary design embodied in the same exquisite sculpture found in Cleopatra and Diva, this is the appeal of the "Basico" model. Basico is the choice for purists who understand that essentials are sometimes enough to enhance and reflect the aesthetics of a peaceful sanctuary. An optional wooden base underlines its purist elegance making it the perfect choice to enrich pool or Spa surroundings.

- Weight: DIVA 95Kg; Cleopatra 120Kg;
- Dimension: 1930mm x 680mm x 540mm
- Hidden thermostat control: Up to 104°F
- 30 minutes to achieve set temperature

- UPGRADE POSSIBILITIES
- Three zone heating system
  - Genuine leather cover base
  - Wood covered base
